SUPPLEMENTARY INFORMATION: On May 11, 2021 the West Virginia Department of Environmental Protection (WVDEP) submitted a revision to its SIP pertaining to the amendments of Legislative Rule, 45CSR8-Ambient Air Quality Standards. The SIP submittal updates West Virginia's incorporation by reference of the NAAQS promulgated by EPA and found at 40 Code of Federal Regulations (CFR) part 50 and ambient air monitoring reference methods and equivalent methods promulgated by EPA and found at 40 CFR part 53 into West Virginia's legislative rules.

I. Summary of SIP Revision and EPA Analysis

WVDEP has historically chosen to incorporate by reference the Federal NAAQS, found at 40 CFR part 50, and the associated Federal ambient air monitoring reference methods and equivalent methods for these NAAQS found at 40 CFR part 53. When incorporating by reference these Federal regulations, WVDEP has specified that it is incorporating by reference these regulations as they existed on a certain date. The incorporation by reference of the NAAQS that is currently approved in the West Virginia SIP incorporates by reference 40 CFR parts 50 and 53 as they existed on June 1, 2019. West Virginia's May 11, 2021 SIP revision updates the State's incorporation by reference of the primary and secondary NAAQS and the ambient air monitoring reference and equivalent methods, found in 40 CFR parts 50 and 53,

respectively, as of June 1, 2020. Since the last West Virginia incorporation by reference of June 1, 2019, EPA: 1) designated one new equivalent method for measuring concentrations of ozone in ambient air; 2) designated one new reference method for measuring concentrations of nitrogen dioxide; 3) amended an existing reference method for measuring particulate matter (PM₁₀) in ambient air; 4) designated one new reference method for measuring concentrations of sulfur dioxide in ambient air; 5) designated one new equivalent method for measuring concentrations of nitrogen dioxide in ambient air. See 84 FR 44299 (August 23, 2019), 84 FR 50833 (September 26, 2019), 85 FR 5958 (February 2, 2020), 85 FR 27221 (May 7, 2020).

The amendments to the legislative rule include changes to section 45-8-1 (General), 45-8-2 (Definitions), and 45-8-3 (Adoption of Standards). The amendments update West Virginia's incorporation by reference of the primary and secondary NAAQS and the ambient air monitoring reference and equivalent methods from June 1, 2019 to June 1, 2020. West Virginia is incorporating the Federal rules in 40 CFR parts 50 and 53 as they existed on June 1, 2020 into 45-8-1 and 45-8-3. The amendment to section 45-8-2 changes the wording of the definition of both the CAA and "Secretary."

II. Proposed Action

EPA is proposing to approve the West Virginia SIP revision of May 11, 2021, updating the incorporation by reference of EPA's NAAQS and associated ambient air monitoring reference methods and equivalent methods. EPA is soliciting public comments on the update to West Virginia's incorporation by reference. Please note that EPA is not seeking public comment on the level of the NAAQS which West Virginia incorporated by reference into its regulations. An opportunity for public comment on the level of each individual NAAQS was given when EPA proposed each such NAAQS. Relevant comments will be considered before taking final action.

III. Incorporation by Reference

In this document, EPA is proposing to include in a final EPA rule regulatory text that

includes incorporation by reference. In accordance with requirements of 1 CFR 51.5, EPA is proposing to incorporate by reference 45CSR8, as effective on June 1, 2021, discussed in section I. Summary of SIP Revision and EPA Analysis, of this preamble. EPA has made, and will continue to make, these materials generally available through www.regulations.gov and at the EPA Region III Office (please contact the person identified in the **FOR FURTHER INFORMATION CONTACT** section of this preamble for more information).

IV. Statutory and Executive Order Reviews

Under the CAA, the Administrator is required to approve a SIP submission that complies with the provisions of the CAA and applicable Federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, EPA's role is to approve state choices, provided that they meet the criteria of the CAA. Accordingly, this action merely approves state law as meeting Federal requirements and does not impose additional requirements beyond those imposed by state law. For that reason, this proposed action:

- Is not a "significant regulatory action" subject to review by the Office of Management and Budget under Executive Orders 12866 (58 FR 51735, October 4, 1993) and 13563 (76 FR 3821, January 21, 2011);
- Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);
- Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);
- Does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104-4);
- Does not have federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
- Is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);

- Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);
- Is not subject to requirements of section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the CAA; and

Does not provide EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).

In addition, this proposed rule, proposing to approve the West Virginia SIP revision updating its incorporation by reference of EPA's NAAQS and associated ambient air monitoring reference methods and equivalent methods, does not have tribal implications as specified by Executive Order 13175 (65 FR 67249, November 9, 2000), because the SIP is not approved to apply in Indian country located in the State, and EPA notes that it will not impose substantial direct costs on tribal governments or preempt tribal law.
